

ART OR CARBUNKLE?

09 January 2012

The pursuit of art on a regular basis may be the key to healing our minds and bodies.

Kim Blair

Help Shape your Landscape: What's your vision?

Would you like to learn more about outdoor sculpture and art? Would you like to be part of the consultation process involved in re-shaping your neighbourhood?

City South Manchester Housing Trust are investing £3,000,000 on environmental improvements across eleven neighbourhoods. They have commissioned BCA Landscape to re-shape your outdoor

spaces and the Landscape Architects would welcome your input to the artwork elements of these projects.

City South Manchester Housing Trust and BCA Landscape would like to invite you to join a short WEA course that will introduce you to outdoor sculpture and art. You will spend time at Whitworth Art Gallery learning about art, and

visit the Yorkshire Sculpture Park to view the current exhibitions and walk around the inspirational outdoor sculpture trails.

This course is free to participants, including the minibus travel to cultural venues and any entrance fees. However, places are limited and will be allocated on a first come first served basis.

Get involved:

It's your city, your landscape

Not only will you learn about art and sculpture but you will also be part of the ongoing consultation process involved in making your neighbourhood more attractive.

Come along and help City South Manchester Housing Trust and BCA Landscape decide what sort of public art work will enhance the area in which you live.

What's your vision? Art or Carbunkle? Get involved and help shape your landscape.

To reserve your place on the course please contact Elaine Hutchings at WEA:

Get involved in an issue that you're passionate about. It almost doesn't matter what it is ... We give too much of our power away, to the professional politicians, to the lobbyists, to cynicism. And our democracy suffers as a result.

Barack Obama
